Date Test Completed: 10/24/24

Date Results Received: 10/29/24

Account Number: WA575

Account Name: SAWDUST ALPACAS (WA575)

NOTE: This AOA BVDV test is a PCR test. Please note that if BVDV was not found in the sample that you submitted, DDC Veterinary provides the result as “Not Detected,” instead of “Negative.” Because no lab can guarantee that an alpaca is definitively negative, DDC Veterinary uses the term “Not Detected.” This means that BVDV was not found within the sample that was drawn and submitted on the date listed above. The PCR test is the same as others and just as accurate, it is simply a difference in wording. If a member or veterinarian has any questions, please contact the AOA office at the number below.
